Online search of the Register facility.

4. The online register is the definitive list of all chaplains who have current registration with the UKBHC and is the primary source for checking a chaplain’s registration status. If a chaplain’s name appears on the list it indicates that they are registered with the UKBHC, their registration fees have been paid and their registration is up to date. If a person’s registration has lapsed, UKBHC will still have a record of this but it will not appear in the

on-line search results. Personal details such as the chaplain's date of birth and address are not displayed on-line.
